CONNECTICUT TRAIL CENSUS/UCONN EXTENSION INITIATES CT TRAIL FINDER WEBSITE!

The Connecticut Trail Census, a project of UConn Extension, announced it is developing [CT Trail Finder](#), a new one-stop web resource that will provide easy, fast, and centralized access to maps and reliable information about all of Connecticut's trails!

Slated to launch in May 2021, this new resource will be especially helpful for new hikers, walkers, and cyclists who may be looking for new and different trails, as many of Connecticut's most popular trails are seeing [significant increases in use](#) in comparison to 2019, due to an increase of outdoor activity during the COVID-19 pandemic.

A key feature that distinguishes [CT Trail Finder](#) from many trail websites and mobile apps is that all data is trail manager approved, so users will have accurate, dependable trail information direct from the source. [CT Trail Finder](#) also allows trail managers and land stewards to update their information in real time and communicate directly to users about any alerts such as parking constraints, access, and more.

We look forward to seeing you outdoors!
